About This

30-Day Challenge

The healthy, balanced meals in this 30-day meal plan have been designed for someone who wants to achieve optimal health (and maybe lose some weight in the process), but who also wants to provide tasty, nutritious meals for their family. The recipes in **The Mediterranean Diet** are simple and suitable for anyone, right from the kids in the house to the grandparents.

It is assumed that breakfasts and lunches will be prepared for just one or two individuals. For example, a single person or a couple who have opted for weight loss and therefore will be eating separate breakfasts and lunches from their children (who will likely eat the usual cereal and sandwiches for these meals). Just double the servings to make enough for the whole family!

The dinners in this plan are designed to feed a family of four. A typical Mediterranean diet is not necessarily low in carbohydrates, in fact, it encourages an abundance of vegetables, legumes, and whole grains. However, opting for low carbohydrates has been shown to speed up weight loss in some cases. Those Mediterranean eaters who want to speed up their weight loss should have a look at our low- carb Mediterranean meal plan.

This diet, rich in savory foods, will keep you feeling full and satisfied. Some people suggest skipping breakfast as part of an “intermittent fast”. This means you keep your eating “window” to 8 hours, for example between 12 pm and 8 pm, or 10 am and 6 pm. The idea here is to give your body time to use your fat stores for energy. If you decide to go with this option remember to only drink black tea, coffee, or water until you break your fast.

However, if breakfast works for you, then by all means enjoy the recipes. Remember, this is meant to be a guide that teaches you and your family that there are plenty of healthy and tasty options if you know how to shop, prepare food and snack strategically.

The final “week” of this meal plan actually covers 10 days. There are 30 days in a month, but we wanted to keep this menu cycling through the work/school week. So each “week” starts on a Monday and ends on a Sunday, with a few extra days in the end to finish out the full 30 days.

Tips and Hints for Success

To be consistent means that you have to do some planning ahead. At first, this will seem like extra work. But eventually, you'll get into the groove of shopping, re-purposing leftovers, and having healthy snacks at the ready. After you've been following these recipes for 30 days you'll also learn how to put healthy meals together all on your own.

Even if you decide not to make a strict Mediterranean lifestyle your way of eating for the rest of your life, being on this diet will dramatically change the way you think about food, and the way that you eat, for the better.

Find some helpful tips below.

Get into bone broth.

Broth made from the simmered bones of chicken, beef, and turkey contains some of the best nutrition around. You can drink the bone broth as a meal by itself, or use small amounts of it to enhance the meals that you cook.

You don't need to make an extra shopping trip to make bone broth. Just use the bones of the meat that you were already serving to yourself and your family. If you make a habit to simmer up a pot of the bones remaining from your recent meal, you'll find that you always have bone broth when you need it. In fact, this is how our grandparents and great-grandparents did it. They knew how to get every last drop of goodness out of the food items that they purchased. They were able to stretch ingredients for much longer, simply by using their resourcefulness and ingenuity.

Stock your cabinets with Mason jars and lids. Your bone broth will store well, in both the refrigerator and freezer, in these. You just have to remember to take out a new jar of broth from the freezer as the old one finishes.

Plastic is not the ideal storage container for your bone broth supply. Remember to leave a little room at the top of the jar because liquid expands after it's frozen. You don't want your Mason jars of wonderful bone broth shattering in the freezer.

Stretch the simmer time - keep adding water. You probably think of making soup and boiling the ingredients for a few hours. Your chicken and beef marrow bones

can go the distance. In fact, the more you continue to add water to the pot and keep them simmering the more the bones break down with rich calcium, minerals, and other vital nutrition, to keep your bones and teeth strong, and your body healthy.

Try to use bones from grass-fed animals. Feedlot cows and chickens are not the way to go, this is because these animals are fed a poor diet and remain trapped in cramped, dark living quarters. Not only is this inhumane, but the animals are not being fed the diet they need for optimal health which is then passed down to you and your family when you eat meat.

Invest in a second freezer. You can probably find a chest freezer for a good price in your local advertiser or on social media marketplaces. Another option is to just have a second refrigerator with a freezer. This will be an ideal spot to store your overflow of bone broth jars.

Keep it simple. The way to make a chore out of bone broth preparation is by pressuring yourself to keep to a high standard of special ingredients. Sure, if you also add garlic, onion, herbs, and vegetables to your broth, it will be even more nutritious. But you can always do this later - like when you decide to make soup for your family. For now, just get the bones into a big pot and cover with water, then simmer. If you work outside the home, plug in your slow cooker, and your bone broth will be ready to use when you arrive home from work.

Add apple cider vinegar to your bone broth. Acid extracts the nutrition from the chicken or beef bones. Your bone broth will be even more delicious and nutrient-rich with a tablespoon or two of vinegar added while cooking.

Don't forget about broth made from shellfish and even regular fish. Next time you make a special meal of mussels or shrimp, don't toss those shells out just yet. Put them in a pot of water on the stove to simmer for 15 to 30 minutes. Strain and package in a Mason jar. Now you have yummy seafood stock, which contains its own unique nutrition and tons of minerals.

What can you do with bone broth?

- Warm up a cup and add some cayenne pepper, garlic or other herbs and spices.
- Thaw a jar of it to make soup out of. Just cook the other ingredients, such as veggies and leftover meat. Pour in the broth and you're on your way to homemade soup in less than 30 minutes.

- Add a small amount of bone broth to anything you're cooking - side dishes such as mashed turnips or cauliflower (for those on the low-carb plan), whole-grain pasta, or brown rice (for those on the standard Mediterranean plan), sautéed vegetable dishes and more.
- Drink a cup of warm bone broth on its own.

Foods To Go - What Can You Take Along So You Won't be Tempted to Cheat?

The biggest temptation to start eating processed foods is when you're out and about, and that "hangry" feeling hits. You have no snacks in the car or on your person to sustain you. The Burger King or Dunkin Donuts drive-thru window beckons enticingly. The cafeteria at work is serving cheesy quesadillas. It's all so tempting.

This is NOT the way to be successful in **The Mediterranean Diet**. Instead of falling prey to the temptation of convenience foods, get into the habit of stocking up on healthy fats, and fibrous veggie snacks that you can take on the go. This will keep your fuel tank reasonably filled while you're out at work or running errands.

What to Buy

- Lunch Box - soft, wipeable fabric and vinyl-lined are best.
- Storage containers - small ones with tight-fitting, snap-on lids will minimize the mess.
- Plastic forks spoons, napkins, and cups to keep in the car. Just keep them in a bag in the trunk.
- A reusable, aluminum, or glass water bottle to prevent unnecessary trips to the soda machine or drink counter.

What Foods to Stock

Eggs.

Get into the habit of boiling and storing a pot of eggs so you can grab a few each day to stash in your food bag before you head out the door.

Avocados.

Avocado is an amazingly delicious and versatile source of omega 6 fats that can be added to or served as a side with many dishes. The more you can diversify your fats (as opposed to just eating tons of butter and cheese, the better for your long-term health and success on this diet.

Canned fish.

If you're a fan of tuna and salmon salads, you're in luck. Fatty fish, such as salmon, is one of the best protein choices on **The Mediterranean Diet**. In fact, it is recommended that you eat more than 3 servings of fish or seafood each week. Sardines are some of the healthiest fish you can find, so if you enjoy those you can keep your pantry stocked with a variety of sardine, selections to pack in your lunch box.

(Sugarless gum might be a good thing to have if you'd like to avoid post-lunch tuna breath.)

Low-fat dairy.

A traditional Mediterranean diet will include small amounts of low- fat yogurt, sour cream, etc. and very rarely butter or cream. This is because these foods are high in saturated fats and have been shown to increase cholesterol. It is best to cook with mono-unsaturated fats such as olive oil.

Meat.

Red meat can be included in a Mediterranean diet, however, it is recommended that you have less than one portion per day. Rather opt for "white" meats such as chicken or fish. If you purchase red meat at the store, choose leaner cuts. Remove the skin of your chicken and cut the fat off your meat before cooking. This is because those are all sources of saturated (the bad kind of) fat and we want to avoid it when following **The Mediterranean Diet**.

A wide variety of vegetables.

All veggies are welcome on **The Mediterranean Diet**. This is because different vegetables contain different vitamins, minerals and phytochemicals (this helps protect us from heart disease and cancer). They are also a great source of fiber which helps our digestive system.

Nuts and seeds.

Nuts and seeds are a terrific source of healthy fats that will fill you up fast. They are also great sources of vitamin E, iron, and fiber. Variety is the way to go! Enjoy almonds, peanuts, macadamias, Brazil nuts, pistachios, sesame seeds, sunflower seeds, pumpkin seeds, among others. Change it up every day to get the most benefit!

Tips for Maintaining Healthy Digestion

How healthy is your digestive system? Some signs that it is struggling include unintentional weight changes, poor sleep, or constantly feeling tired, bloating, skin problems, and the development of random food intolerances, such as wheat or dairy.

But it's not all doom and gloom. There are things you can do to help improve your gut health. It starts with managing your stress levels. Find ways that help you to de-stress after a long day at the office or running after your kids. This can be as simple as keeping a good book at your bedside to read before bed or downloading a meditation app. Set a reminder on your phone so that it can become a habit.

The next step is to make sure that you get enough sleep. This means at least 7 to 9 hours per night. Have a warm shower before bed, create a calming environment using candles and soft lighting, turn your mobile devices off well before bedtime, and try not to drink caffeine after 12 pm.

Drink your bone broth. Bone broth is full of collagen which may be beneficial in keeping the lining of your gut strong. This is important in maintaining a healthy digestive system.

Now for the eating part. Chew your food. Slowly. Your digestive system wouldn't have to work as hard to digest your food if you took your time eating it. Eat as a family and not in front of the TV. Eating in front of a TV or while distracted at your work desk can lead to overeating, which means you'll be left feeling uncomfortable and bloated.

Include fermented foods such as yogurt or sauerkraut. These help to increase the number of microorganisms you have in your gut, which ultimately helps you digest your food better and keeps your immune system strong.

Eat as many different kinds of fruit and vegetables as you can. And as often as you can. They contain fiber, which helps to keep your digestive system regular.

Avoid processed foods. Eating sugar-laden, processed foods actually encourage the wrong kind of bacteria to grow in your gut. Leading to bad cravings and weight gain.

Avoid too much red meat. Part of the danger of eating lots of meat is that it takes much longer for meat to pass through the digestive tract. This may lead to poor digestive health.

Make green smoothies. A great way to keep the healthy fiber coming is to add kale or spinach to your morning.

Stay hydrated. Make sure you're getting in enough water every day. This helps to keep the lining of your gut healthy and encourages the good microorganisms to flourish.

Try to get in a little physical activity every day. Our digestive system really appreciates it when we're not sitting slouched at a desk all day. Take the stairs instead of the elevator and park your car in the furthest parking spot available.

MEALS

Day 1: Monday

BREAKFAST

Salmon Omelet

This is a hearty and filling breakfast. If you wish to omit lunch preparation, you can save half to enjoy again later. A splash of citrus or unsweetened cranberry juice in your morning water will help to balance the richness of this omelet nicely.

Serves 1

INGREDIENTS:

2 eggs

1 1/2 Tbs. olive oil

4 oz. previously cooked salmon fillet or half
a can of salmon, cut into bite-sized pieces

2 green onions, sliced

1 slice whole-wheat bread

2 oz. mixed lettuce

1 tsp. balsamic vinegar

Salt and pepper, to taste

TO MAKE:

Beat the eggs and season with salt and pepper. Heat 1 tablespoon of olive oil in a skillet on medium heat. Pour in beaten eggs and allow edges to cook, gently moving eggs around pan with a spatula. When eggs begin to solidify, use the spatula to carefully flip the omelet. Distribute salmon around the center of the omelet, sprinkle green onion over the top. Cover with a lid. When the omelet is cooked to your liking, use the spatula to gently fold in half and press down lightly. Remove from heat. Serve with a slice of toasted whole-wheat bread and mixed lettuce with a drizzle of olive oil and balsamic vinegar. Season with salt and pepper, to taste. Enjoy!

LUNCH

Spinach Salad with Avocado Slices, Macadamia Nuts and Grilled Chicken

This fresh and zesty spinach salad provides a boost of vitamins, minerals, and roughage. And with healthy fats thanks to the avocado and macadamia nuts. This refreshing salad is a winner for sure.

To start this recipe, make the vinaigrette about half an hour in advance to give the garlic time to meld with the other flavors. If you like an onion with your salad, here's a tip: after slicing it, place it in a bowl of cool water for about 10 minutes. This will make them milder and sweeter.

Serves 1

INGREDIENTS:

2 cups fresh baby spinach leaves, washed and patted dry

2 Tbs. raw onion, sliced thinly (optional)

2 Tbs. homemade olive oil based vinaigrette

1/2 avocado, sliced

1 medium chicken breast (without skin), grilled

2 Tbs. macadamia nuts, roughly chopped

Salt and pepper, to taste

TO MAKE:

Arrange spinach leaves in a bowl and mix with homemade olive oil vinaigrette. Slice up the avocado and arrange it over the top. Add slices of the grilled chicken breast and finally the macadamia nuts. Season with salt and pepper to taste.

LUNCH

Olive Oil Vinaigrette

INGREDIENTS:

3 Tbs. olive oil

2 Tbs. red wine vinegar

1 clove garlic, minced

Salt and pepper, to taste

TO MAKE:

Place the minced garlic in a Mason jar or recycled dressing container with a lid. Add the vinegar and oil, and a pinch of salt and pepper each. Place the cover on the jar or bottle and shake vigorously. Let sit, so that the garlic oils can mingle with the other ingredients while you prepare the rest of the meal.

SNACK

Strawberries and Yogurt

Strawberries are a great source of antioxidants and vitamin C. They're also low in calories making them a great snack for those looking to lose weight

Serves 1

INGREDIENTS:

1/2 cup low-fat yogurt

4 medium strawberries, halved

TO MAKE:

Eat the yogurt and strawberries together or separately. Can also be blended into a smoothie.

DINNER

Crock Pot Chicken Thighs with Tangy Mustard Sauce

This is a great make-ahead dinner that you can add to the slow cooker in the morning and have it ready to serve by 6 pm. **The Mediterranean Diet** encourages whole grains so we have paired this dish with some nutty brown rice.

Serves 4

INGREDIENTS:

2 lb. chicken thighs
2 Tbs. spicy brown mustard
¼ cup fresh ginger, grated
1 tsp. yellow curry powder

½ cup fresh parsley, chopped
2 cups brown rice, cooked

TO MAKE:

Add all ingredients, apart from the parsley and brown rice, to the slow cooker and stir together. Cover and cook on a low setting for 6 to 8 hours. Sprinkle fresh, chopped parsley over the chicken mixture just before serving. Serve over a bed of brown rice.

DINNER

Marinated Kale Salad with Cherry Tomatoes

Kale is a nutrient-dense, green leafy vegetable that is great to incorporate into your diet. It is high in fiber and packed with lots of important vitamins and minerals.

Serves 4

INGREDIENTS:

- 3 cups raw kale, cleaned and drained/patted dry
- 12 cherry tomatoes, halved
- 1/4 cup balsamic vinaigrette dressing (see recipe below)

TO MAKE:

Separate kale leaves from the ribs and discards the ribs. Place kale leaves in a large salad bowl. Use kitchen shears to snip kale leaves into bite-sized pieces. Pour prepared balsamic vinaigrette over the kale leaves and toss thoroughly. Cover with plastic wrap and allow to marinate in the refrigerator for an hour or two.

Check the salad and toss again to ensure that every leaf has been submerged. When it's time to prepare the evening meal, slice the cherry tomatoes and incorporate into the kale salad, giving everything one final toss before serving.

DINNER

Balsamic Vinaigrette Dressing

It's a good idea to keep a batch or two of homemade vinaigrette on hand in the refrigerator for when you need it. You'll also realize how much more delicious an all-natural dressing can be when compared to store-bought.

Serves 4

INGREDIENTS:

½ cup virgin olive oil

½ cup balsamic vinegar

Pinch of salt

Pinch of pepper

2 cloves garlic, minced

TO MAKE:

Place all ingredients in a jar or bottle with lid. Shake well with the cover on. Pour mixture over the salad.

Day 2: Tuesday

BREAKFAST

Yogurt and Fresh Berries with Nutty “Granola”

Heart-healthy nuts and seeds deliver an extra boost of friendly fats to this crunchy granola-style breakfast and yogurt.

Serves 1

INGREDIENTS:

1 cup low-fat yogurt

½ cup fresh berries such as blueberries, strawberries, raspberries

½ cup nutty “granola” – see recipe below

TO MAKE:

Scoop yogurt into a bowl. Top with nutty “granola”. Spoon berries over the top. Stir and enjoy.

BREAKFAST

Nutty “Granola”

Make a big batch of this granola on a sheet pan, and take a jar with wherever you go. It's the perfect pick-me-up snack to fuel up before the gym or while on a hike.

Serves 4

INGREDIENTS:

¼ cup olive oil
½ cup almonds
½ cup pumpkin seeds
¼ cup cashews
1 tsp. vanilla extract

½ cup sesame seeds
½ cup coconut flakes
½ cup rolled oats
1 tsp. cinnamon

TO MAKE:

Preheat oven to 325F. Mix all ingredients and spread on a baking sheet. Bake uncovered, for about 15 minutes, turning granola about halfway through, to ensure even cooking. Remove from oven and allow to cool.

LUNCH

Quick Salmon Chowder

This lunch recipe was selected to use the leftover salmon from your breakfast omelet yesterday. If you do not have leftover salmon, another option is to serve a lunch of leftover chicken thighs. We have substituted the usual heavy cream with fat-free half-and-half to lower the saturated fat content of the meal, without skimping on the creaminess.

Serves 1

INGREDIENTS:

- 2 Tbs. olive oil
- 1 clove garlic, minced
- 1/2 Tbs. sage
- 1/2 a small onion, diced
- 2 stalks of celery, sliced
- 4 oz. salmon, canned or leftover fillet
- 1 large red-skinned potato, peeled and cubed
- 2 cups chicken broth/stock
- 1 cup fat-free half-and-half
- Salt and pepper to taste

TO MAKE:

Saute garlic, sage, onion, and celery in olive oil until tender. Season with salt and pepper. Add salmon pieces, potato, and chicken broth. Simmer for about 10 minutes. Pour in the half-and-half and continue to cook on low heat for several minutes until it reduces slightly. Serve warm.

SNACK

Fresh Veggie Slices With Creamy Cashew Dip

The Mediterranean Diet encourages regular consumption of nuts in moderate portions. That's why we have included this cashew dipping sauce instead of the usual ranch dressing option.

Once you get into the habit of whipping up your own homemade dips and dressings, you'll wonder why you ever served the preservative-laden store-bought versions. It takes mere minutes to make.

Serves 4

INGREDIENTS:

1 cup raw cashews

1 Tbs. lemon juice

4 Tbs. apple cider vinegar

4 Tbs. olive oil

1/2 Tbs. honey

1/4 teaspoon garlic powder

1/4 cup fresh basil and parsley

Salt and pepper, to taste

TO MAKE:

Blend all ingredients together until smooth. Serve with veggies slices such as raw broccoli, bell pepper, cucumber or carrots.

DINNER

Ground Beef Taco Salad

It's Taco Tuesday. This is a fun meal because you can place all ingredients in separate bowls so family members can pick and choose what they would like in their salad. We have added in some black beans because it is recommended that on [The Mediterranean Diet](#) you have legumes more than 3 times a week, if possible.

Serves 4

INGREDIENTS:

- 1 Tbs. olive oil
- 1 1/2 to 2 lbs. lean ground beef
- 1/2 tsp. cumin
- 1 Tbs. paprika
- 1/2 tsp. chili powder
- 1/2 tsp. salt
- 1/2 tsp. black pepper
- 1/4 tsp. cayenne pepper
- 1/2 tsp. oregano
- 1 small onion, diced
- 1 cup tomatoes, diced
- 1 can pitted black olives, chopped
- 4 cups "spring greens" mix
- 2 avocados
- Hot sauce (optional)
- Salsa
- 2 cans black beans, drained and rinsed
- 1 jar prepared homemade vinaigrette (see recipe from earlier)

TO MAKE:

Cook the ground beef in a large frying pan on medium heat in olive oil. Mix in the spices and continue to stir as the meat cooks. When all the pink is gone and the meat is browned to your liking, remove from heat and drain.

Prepare bowls of taco ingredients and arrange them on the table. Your family can set themselves up with a delicious bed of healthy greens and vinaigrette, topped with prepared taco meat and other toppings.

Day 3: Wednesday

BREAKFAST

Apple and Cinnamon Overnight Oats

This delicious, creamy breakfast is a great option for those busy mornings. Simply prep the oats the night before and you're ready to go. The oats provide fiber while the apple provides lots of phytonutrients which help keep your immune system strong and may protect you from some cancers!

Serves 1

INGREDIENTS:

1/2 cup rolled oats
1/2 cup low- fat yogurt
1/4 tsp. cinnamon

1 apple, diced or grated 2
Tbs. almonds, chopped
1 tsp. honey (optional)

TO MAKE:

Combine the rolled oats, yogurt and cinnamon. Add 1/4 cup water, and stir well. Refrigerate overnight. Before serving, stir through the apple and almonds.

LUNCH

Chickpea and Veggie Medley

We can't forget that there may very well be leftover taco ingredients in the refrigerator from last night's tasty Taco Tuesday extravaganza. They'll be perfect for a Mediterranean-friendly chickpea and veggie medley at noon or so. Here is your second portion of legumes for the week!

Serves 2

INGREDIENTS:

- 1 Tbs. olive oil
- ¼ cup diced onion
- 1 clove garlic, minced
- ½ tsp each: ground cumin, paprika, dried herbs
- 1 can chickpeas, drained and rinsed
- ¼ cup diced bell peppers, red or green
- 2 cups fresh spinach leaves
- 2 Tbs. homemade vinaigrette (recipe shared earlier)

TO MAKE:

In a large frying pan, saute the onion, garlic, and spices in the olive oil over medium-high heat. Continue cooking, stirring frequently, until the onion becomes translucent and soft. Add the chickpeas and peppers. Continue to cook for about 10 minutes stirring often. Serve hot, poured over a bed of fresh, uncooked spinach, with vinaigrette.

SNACK

Celery with Homemade Sour Cream Dip

Celery is the best vegetable to use for dips. It is crunchy and refreshing. For today's afternoon snack, you can either prepare a simple sour cream dip, or if you have leftover cashew dressing, dip your celery in that. We have used a fat-free sour cream because the full-fat version would be too high in saturated fats to make it part of a Mediterranean diet.

Serves 2

INGREDIENTS:

1 cup fat-free sour cream
2 tsp. of onion powder
Salt and pepper to taste

TO MAKE:

Mix all ingredients. Serve with celery sticks.

DINNER

“Unstuffed Cabbage”

Cabbage is known as a prebiotic. This means it helps to feed all the good bacteria in our gut. This is really important when it comes to our digestive health. For this recipe, you should have your ingredients all ready and waiting for you thanks to yesterday's and today's meals. Leftover ground beef and/or leftover chickpeas (with peppers and onions added) will be perfect.

Serves 2

INGREDIENTS:

3 Tbs. olive oil

3 cloves garlic, minced

1/2 cup or one small onion, diced (omit if you already have enough onion from today's leftovers)

1 small cabbage, sliced up into shreds

Any remaining ground beef and/or chickpeas from yesterday's and today's meals

1 large can of tomato sauce (not the kind with sugar or corn syrup added, please)

2 Tbs. apple cider vinegar

1 Tbs. caraway or fennel seeds

Salt and pepper to taste

Cayenne pepper if you can take the heat!

TO MAKE:

In a large skillet, saute the garlic and onions in olive oil. Add the shreds of cabbage and leftover ground beef and/or chickpeas. Pour in the tomato sauce. Add the vinegar and caraway or fennel seeds. Season with salt and pepper, and cayenne if you like it spicy. Mix well. Allow it to simmer for about 30 minutes or so until the cabbage has softened. Add a little extra water or bone broth to keep it from drying out if need be.

Day 4: Thursday

BREAKFAST

Green Smoothie

A green smoothie is a great breakfast option on [The Mediterranean Diet](#). This nutritious, drinkable breakfast will keep your digestion in balance and provide you with all sorts of vitamins and minerals!

Serves 1

INGREDIENTS:

2 kale leaves, with ribs removed

1/2 cup low- fat yogurt

1/2 cup berries (such as blueberries or raspberries)

1 banana

1/2 cup frozen cranberries

1/2 tsp. vanilla extract

2 Tbs. sesame seeds

1 cup water

TO MAKE:

Blend all ingredients along with a cup of ice. Pour into your prettiest glass and drink up!

LUNCH

Leftover Chicken Thighs Over a Bed of Marinated Kale and Quinoa Salad

Remember those zesty chicken thighs we prepared on Monday? You probably still have a serving or two of them leftover, so make use of this delicious food for a simple but tasty and quick-to-prepare lunch. We have added in some quinoa as a low-calorie, high protein whole-grain addition!

Serves 1

INGREDIENTS:

Leftover chicken thighs

Kale salad with balsamic vinaigrette

1/2 cup quinoa, cooked according to package

TO MAKE:

You can serve the cooked chicken thighs hot or cold, your choice. Either quickly zap them in the microwave and serve over the cold salad and quinoa, OR chop them up and mix with the kale greens.

DINNER

Chicken Thigh Taco Salad Bowl

Some people don't appreciate the amazing potential of leftovers. But you will when you see what wonderful meals you can make with just a few simple tweaks to the dinners you prepared earlier in the week. Got chicken thighs, and leftover taco toppings? You're on your way to "Lunch Taco Thursday"! We have substituted the usual cheddar cheese with a low-fat cream cheese, still creamy but a healthier option.

Serves

INGREDIENTS:

Leftover cooked chicken thighs, cubed
1/2 cup low fat cream cheese
1/4 cup black olives
1 cup lettuce greens
2 Tbs. homemade vinaigrette

1/4 cup bell peppers,
diced 1/2 avocado, cubed
1/8 cup onion, diced
2 Tbs. hot sauce

TO MAKE:

Toss the lettuce greens with vinaigrette and arrange on a plate. Place the cubed chicken thighs, hot or cold, over the lettuce. Top with peppers, onions, olives, shredded cheddar, hot sauce, avocado pieces, and sour cream. Such a yummy lunch!

SNACK

Friday's veggie-packed breakfast will be a satisfying start to the day. Never be afraid to add in little extra vegetables whenever you can. Even at breakfast!

Serves 1

INGREDIENTS:

1 tsp. olive oil
1 garlic clove, minced
1/4 cup red pepper, diced
1 Tbs. onion, diced

1 cup baby spinach
2 eggs
Salt and pepper, to taste
1/2 cup strawberries

TO MAKE:

Saute the garlic, red pepper, onion, mushrooms, olives, and dried herbs in olive oil over medium heat for 2 minutes until the onion becomes soft. Place in a bowl and mix through the baby spinach. Beat the eggs with a tablespoon of water, salt, and pepper. Reheat the same skillet to medium heat and place the beaten eggs into it. Allow cooking for a few minutes until the base has set. Place the vegetable mix over half the omelet and once it has set enough fold it over. Gently slide it out of the pan and enjoy with a freshly toasted slice of whole-wheat bread and a side of fresh strawberries.

LUNCH

Salmon Salad With Cucumber Slices and Avocado

If you're a fan of salmon, you'll love this simple Mediterranean-friendly lunch that is reminiscent of the classic tuna salad but with a bit of an Asian flair.

Serves 2

INGREDIENTS:

1 can of salmon, bones and skin removed
1 stalk celery, sliced
2 tsp. soy sauce or Bragg's amino
1 Tbs. apple cider vinegar
1 Tbs. toasted sesame oil
Salt and pepper to taste
3 tsp. wasabi mayo

Hot sauce (check label and choose a brand with no added sugar or sweeteners)
1 medium cucumber
1/2 avocado
2 Tbs. toasted sesame seeds, toasted

TO MAKE:

Combine salmon, diced celery, soy sauce, vinegar, sesame oil, and salt and pepper in a mixing bowl. Stir everything together until well combined.

Remove skin from the cucumber and slice thin. Arrange on a plate. Slice avocado and place on the plate. Top with 2 scoops of the salmon salad. Drizzle wasabi mayo and hot sauce over the top if desired. Finish with a sprinkle of toasted sesame seeds.

SNACK

Pickled, Hard Boiled Eggs

If you have access to farm-fresh eggs from free-range chickens, these tend to have more nutrition due to the chickens' diet of protein-rich insects and omega-rich green grass—it's even better!

It's also a nice change of pace to pickle the eggs and keep a stash of these protein-rich snacks in the refrigerator. We have omitted the usual sugar for a more tangy, healthier pickle.

Serves 9 (2 eggs per snack)

INGREDIENTS:

2 cups white vinegar

1 cup beet juice (can be made by simmering beets and draining the juice, or purchase canned beets and pour the juice from the can into your pickling brine)

1/2 cup salt

4 cloves garlic

18 eggs

1 medium onion, sliced in rings

6 whole cloves

1 sprig of dill

TO MAKE:

Hard-boil the eggs by placing in a pan of water and bringing to a boil. Once the water begins bubbling, turn off the heat, and cover with a lid. Let sit for 12 minutes.

When the eggs are done, remove from the stove and run cold water into the pot to bring the temperature down. Continue running water into the pot until cold. Let eggs rest in the cool water for about 15 more minutes. Remove shells and outer membrane from eggs, taking care not to break them.

Next, make your egg pickling brine by combining the vinegar, salt, and other ingredients in a large pot. Bring to a quick simmer, then remove from the heat – this is to dissolve the salt in the liquid. Pour pickling brine into a large glass jar that will fit all 18 eggs. You can also opt to use Mason jars for this, and place 4 or 5 eggs plus the pickling ingredients in each jar.

Let eggs soak in the brine for up to 2 weeks. When pickled to your liking, eat, and enjoy.

DINNER

Crock Pot Chili

With the weekend coming up, this will be the perfect go-to stored meal. Just put all ingredients together in the slow cooker and set to low before heading out for work in the morning. When you arrive home, dinner will be waiting.

Serves 4

INGREDIENTS:

2 lbs. lean ground beef, preferably the kind that comes from grass-fed cows
1 large onion, diced
2 bell peppers, chopped
1 large can diced tomatoes
3 cloves garlic, minced
2 Tbs. cumin

2 Tbs. chili powder
3 tsp. cayenne pepper
Salt and pepper to taste
1 can mixed beans, drained and rinsed
2 cups brown rice, cooked
1 container fat-free sour cream
2 avocados

TO MAKE:

In a large skillet, brown the ground beef on medium heat, stirring frequently using a spatula. Add spices and continue to cook until sufficiently browned to your liking, then remove from heat. Drain excess liquid from the meat and transfer to the slow cooker.

Add diced onions, peppers, garlic, and canned diced tomatoes. Season with salt, pepper, and cayenne to taste. Cook in a slow cooker on low heat setting for 6 to 8 hours.

When ready to serve mix through the beans and serve with brown rice, chopped avocado, and sour cream. Serve hot and enjoy!

Day 6: Saturday

BREAKFAST

Yogurt, Banana and Nutty "Granola"

Whether your Saturday mornings are spent relaxing, working, or as the kickoff for a busy weekend of fun and adventure, the nutty "granola" you made earlier in the week is sure to keep you going!

Serves 1

INGREDIENTS:

1 cup low-fat yogurt

1 banana, sliced

1/2 tsp. cinnamon

½ cup nutty "granola" – see recipe on page 22

TO MAKE:

Scoop yogurt into a bowl. Top with nutty "granola". Place sliced banana and cinnamon over the top. Stir and enjoy.

LUNCH

Leverage Those Leftovers

Who says lunch has to be sandwiches when there are delicious, homemade meals leftover and waiting for you to heat up and enjoy? Today is a perfect day to check the refrigerator and make use of whatever is left over. You might find some remnants of the beef and cabbage medley from Thursday, veggie omelet from Friday's breakfast or even some hearty chili from yesterday evening.

LUNCH

Light Lunch

After that delicious and filling breakfast, you may be looking for something light to tide you over. Try these minimal-preparation options for your mid-day meal:

Pickled eggs and mixed nuts (peanuts, almonds, macadamias, etc.) or a can of sardines with a side of marinated kale or spinach leaves with vinaigrette and slices of avocado.

SNACK

Chocolate Coconut Peanut Butter Bombs

Sometimes it's nice to indulge your sweet tooth while eating the Mediterranean way. After a full week of sticking to mostly savory foods, why not experiment with this sweet treat. Dark chocolate has less sugar and dairy in it than ordinary milk chocolate, and it's packed with loads of antioxidants.

Serves 10

INGREDIENTS:

1 cup 70% dark chocolate chips

1/2 cup sugar-and salt-free peanut butter
(make sure it's a little runny!)

2 Tbs. honey

Salt (optional-for topping)

TO MAKE:

Line a muffin tray with muffin liners or grease with a little olive oil. In a small mixing bowl combine the peanut butter and honey. You can microwave or heat it up in a bowl over boiling water if it's very solid. In a saucepan, melt the dark chocolate over low heat. Pour a little chocolate into each muffin liner, just enough to cover the bottom. Place into the fridge for about 10 to 15 minutes to set. Spoon a little of the peanut butter mixture on top of the chocolate base of each muffin liner. Pour the remaining chocolate over the top of each one. Sprinkle the salt over. Place in the freezer for 30 minutes until completely set. Store in the freezer for an emergency sweet treat!

DINNER

Ground Beef and Spaghetti Squash Casserole with Whole-Wheat Spaghetti

Hooray, it's the weekend! You could opt to explore some Mediterranean-style options at your local eating establishments for a change of pace. You could even cheat today... you've earned it! But if you'd prefer to keep a good thing going, then why not utilize the ground beef chili leftovers that you have on hand, and combine them with spaghetti squash? This is so healthy, delicious, and easy to make!

Serves 4

INGREDIENTS:

1 spaghetti squash

3 Tbs. olive oil

3 cloves garlic, minced

3 cups leftover ground beef chili

1 tin chopped tomatoes

1 cup low-fat ricotta cheese

2 cups whole-wheat pasta, cooked

1/2 cup chopped parsley

TO MAKE:

Preheat oven to 350 F. Slice the spaghetti squash in half and place in a baking pan. Drizzle olive oil over the squash and bake for 30 to 40 minutes or until the outer skin begins to brown a bit and squash seem soft from the outside like it's going to collapse. Remove from the oven and allow to cool for about 15 minutes. Once cool, use a fork to remove the seeds and fluff up the squash's insides.

Next, grease the sides and bottom of a baking dish. Remove spaghetti squash from the skin and place it inside the pan. Drizzle on a bit more olive oil, and mix in the minced garlic. Top with the ground beef chili from the previous evening's meal. Stir through a tin of chopped tomatoes. Add a layer of ricotta cheese. Bake at 350 degrees for about 20 minutes. Serve over a bed of whole-wheat spaghetti and top with fresh parsley.

Day 7: Sunday

BREAKFAST

Ricotta and Fresh Berries

INGREDIENTS:

1/2 cup low-fat ricotta

1 cup mixed berries—strawberries, blueberries, raspberries or blackberries

2 slices whole-wheat bread, toasted

1 tsp. honey.

Scoop ricotta onto the slices of whole-wheat toast, top with berries, and drizzle with a little honey. Eat and enjoy!

LUNCH

Serves 1

INGREDIENTS:

1 Tbs. natural peanut butter

2 stalks of celery

Slice each stalk of celery in half or in 3 pieces long ways. Use a knife or spoon to fill the center with natural, additive-free peanut butter. Yummy and filling, too.

Mashed Turnips

This is a delicious alternative to mashed potato, that makes use of another underutilised but very healthy vegetable!

Serves 4

INGREDIENTS:

4 medium sized turnips, chopped

1/2 cup chicken broth

4 Tbs. olive oil

1 clove garlic, minced

Salt and pepper, to taste

1/3 cup low-fat sour cream

TO MAKE:

Place turnips in a medium-sized sauce pan and cover with water. Bring to boil over medium or medium-high heat. Once turnips begin to bubble, lower heat and simmer on medium-low until turnips are soft. Remove from heat and drain. Return to stove top and add chicken broth, olive oil, garlic, salt, pepper, and sour cream, and bring up to a boil again, then lower heat and continue to simmer, stirring frequently. Remove from heat and use a potato masher to mash the turnips.

Day 11: Thursday

BREAKFAST

Farm Eggs Poached in Bone Broth

If you've been reading up on [The Mediterranean Diet](#), then you may have learned that bone broth is a great source of nutrition.

Here's an easy, 5-minute breakfast to make that incorporates bone broth, assuming you have it on hand. You could also use store-bought beef stock, but the assumption is that the broth which has been simmering on low for days on your stovetop likely contains more beneficial nutrition than the ones subjected to high heat in factories.

Serves 1

INGREDIENTS:

2 eggs from free-range, local chickens

Salt and pepper, to taste

1 cup bone broth

2 cups baby spinach

1 sweet potato, chopped

TO MAKE:

Pour a cup of homemade bone broth into a large skillet and heat to medium-high until broth begins to simmer. Boil the sweet potatoes in the broth until tender. Crack in the eggs. Bring to a swift boil, then cover tightly and let bubble for maybe just a minute longer. Turn off the heat and let eggs continue to cook in the hot liquid, for maybe 3 minutes. Check periodically until eggs are done to your liking. Yolks can be runny or solid, depending on your preference.

Season with salt and pepper. Stir through the baby spinach. Serve immediately.

BREAKFAST

Steamed Broccoli With Garlic

Not just for omelets, a helping of broccoli can be a great and healthy start to your day. This is one of the best, fiber- and vitamin-rich vegetables to promote healthy digestion.

Like other cruciferous vegetables, broccoli fights free radicals in the body (because it contains antioxidants) and is considered a superfood.

Serves 1

INGREDIENTS:

1 Tbs. olive oil

1/4 head of fresh broccoli, florets removed

2 cloves garlic, minced

1/2 cup bone broth

1/2 tsp. sesame seeds

Salt and pepper, to taste

TO MAKE:

Saute the minced garlic in the olive oil. Add broccoli to the pan and cook quickly on medium high heat, tossing frequently to ensure even cooking on all sides. Pour in bone broth and bring the heat up until the broth begins to simmer. Remove from heat as soon as broccoli becomes fork-tender, but don't allow broccoli to lose its green color.

LUNCH

Antipasto Plate

We have put together a healthy antipasto plate for you to enjoy as lunch. This is best served shared but you can have it all to yourself if you want!

While the cauliflower is cooking, you can break it up into smaller pieces using a pair of sharp kitchen shears. Saute the cauliflower on medium heat until you get the aroma of the garlic. Use a potato masher to mash the cauliflower together with another tablespoon of olive oil.

DINNER

Italian Mediterranean Meatballs and Whole-Wheat Spaghetti

Here's a super healthy dinner that the whole family can enjoy. See what your children think of this healthy alternative to spaghetti, whole-wheat spaghetti! We have added a sprinkling of Parmesan cheese as a treat. Parmesan cheese is lower in fat than other cheese so a good option to top your pasta with.

Serves 4

INGREDIENTS:

4 cups whole- wheat pasta

6 cups tomato sauce (see recipe below)

12 meatballs (see recipe below)

4 Tbs. Parmesan cheese, grated

TO MAKE:

Prepare the whole-wheat pasta according to the package instructions. Pour tomato sauce over the top, and add 2-3 meatballs to each plate. Top with grated Parmesan cheese.

HOMEMADE TOMATO SAUCE

Better to make your own homemade tomato sauce than opt for the jarred kind, most of which contain sugar, corn syrup, or both. If you decide to opt-out of making sauce from scratch, Rao's is a good brand that does not contain added sugar.

Serves 4

INGREDIENTS:

2 Tbs. olive oil	3 sprigs of fresh thyme, to be removed later
3 cloves garlic, minced	2 tsp. salt
2 cans tomato sauce, no added sweeteners •	2 tsp. black pepper
1 can whole Italian tomatoes, peeled	
Fresh basil, several sprigs	

TO MAKE:

Heat the oil in a saucepan to medium heat. Add garlic and continue to heat, stirring frequently, until the aroma is present. Do not burn the garlic! Add tomato sauce. Use your fingers to mash the whole canned tomatoes and add to the sauce. Season with fresh herbs (to be removed later). Stir in salt and pepper.

Cook on medium heat until the sauce begins to bubble. Then turn down the heat setting to low or medium-low, and partially cover. Let the sauce cook for about 30 to 40 minutes, stirring occasionally. Adjust heat as necessary to keep sauce cooking at a slow simmer.

MEDITERRANEAN MEATBALLS

The hallmark of really good meatballs is that you can't tell where one flavor ends and the next begins. To achieve this, you must finely mince all the ingredients together. Almond flour substitutes ordinary bread crumbs, adding in an extra portion of healthy fats.

Serves 4

INGREDIENTS:

1 1/2 to 2 lbs. lean ground beef, preferably farm raised free-range
1 cup grated Parmesan cheese
1 cup almond flour
2 eggs, beaten

2 cloves garlic, minced
1/2 cup flat -leaf parsley, minced
2 Tbs. olive oil
Salt and pepper, to taste

TO MAKE:

Preheat oven to 350 F. Combine all ingredients in a large bowl. Form into tablespoon-sized balls and place on a baking tray or pan. Drizzle with olive oil. Bake for about 30 to 40 minutes, or until meatballs are cooked through.

Quick Homemade Tomato Soup

This is an easy way to use up leftover tomato sauce if you have some handy. Please note that canned tomato soup that you find on your grocery store shelves is generally not great because of the added corn syrup.

1/2 cup low-fat yogurt

2 slices whole-wheat bread, toasted

2 Tbs. pumpkin seeds

SNACK

Sardines and Hard Boiled Eggs

Some people find the smell of sardines to be offensive. However, if you rinse your mouth out and bring along some good peppermint sugar-free gum, you should be okay with these as your healthy Mediterranean-friendly snack. If you really can't stand sardines, you can substitute with some hummus or a handful of nuts.

INGREDIENTS:

1 hard boiled egg

1 can of sardines

Pepper Pot Soup

You don't hear of this traditional favorite much these days. However, the leftover ground beef from the other evening's Mediterranean meatball fest will work perfectly in this quick and easy yet satisfying dinner.

Serve your bone broth alongside a toasted slice of whole-wheat bread spread with low-fat cottage cheese.

DINNER

Grilled Chicken and Broccoli Rabe

Broccoli rabe is a stalky, bitter cousin of broccoli. It is another cruciferous vegetable, like broccoli and cabbage, which makes it a prebiotic and therefore great for gut health too.

4 medium (4 oz.) chicken breasts,
without skin
3 cloves garlic, minced
1 Tbs. olive oil

1 bunch broccoli rabe
1/2 cup bone broth
4 cups brown rice, cooked
1 lemon, juice of
Salt and pepper, to taste

TO MAKE:

TIP: to reduce the extreme bitterness of broccoli rabe, blanch it prior to cooking. Blanching involves bringing your vegetables to a boil in water, simmering for a few minutes, then plunging into an ice bath to stop the vegetables from cooking further. After blanching your broccoli rabe, place in a bowl, covered, for use in the recipe again shortly.

Prepare the brown rice according to package in instructions. Cook the chicken breasts in a large skillet on medium to medium-high heat in a tablespoon of olive oil. Grill for about 10 minutes on each side. Add minced garlic to the pan along with the blanched broccoli rabe. Stir everything together. Pour in bone broth and cook on low a few minutes more.

BONUS CHAPTER:

How To See Better (and Faster) Results On The Mediterranean Diet

Several years ago, I noticed there was one single thing the most successful people do to see better (and even faster) results on **The Mediterranean Diet**.

I'd like you to try it as well — and I've found a way to make it super easy. In fact, it will take just 29 seconds a day.

What am I talking about?

Well, the folks that lose the most weight, feel the most energy, and see the biggest improvements on their blood markers...

MAKE
100% SURE TO EAT
6-12 SERVINGS OF
FRUITS AND
VEGGIES
EVERY SINGLE DAY.

You see, eating pasta, chicken alfredo, and pizza is the EASY part. And yes, those foods are important to your overall health.

But, vegetables are the “secret” behind the healing power of the Mediterranean Diet.

Simply because they are chock-full of healthy antioxidants and phytochemicals that rejuvenate every cell in your body.

Ever wonder why Europeans are so much thinner and healthier than Americans? Well, that’s because vegetables like broccoli, arugula, asparagus, and kale are staples at Sunday lunches in Italy and France.

However, it’s easy for the Europeans to make sure they always eat their “greens.” Entire families often live under the same roof, which means Grandma will often cook while the adult children work.

But American culture is different. We don’t usually live with our elderly parents or in-laws. So, we don’t have anyone to do the cooking.

In fact, you probably do it all.

You cook dinner, clean the house, and pay the bills.

You juggle everyone’s needs, and try to make sure your family is happy and healthy.

So after a stressful day at work, you **deserve** to kickback and relax — not wash, chop and prepare vegetables. Trust me, I’ve been in your shoes!

Luckily, I found a way for you to get every single fruit and veggie your body needs in just 29 seconds a day — no juicing, blending, or chopping veggies required.

How? With a ready-mix superfood drink called **Daily Energy**.

Each scoop of Daily Energy contains a whopping 60 fruits, veggies, enzymes, spices, herbs, and superfoods. One glass helps you cover all of your nutritional bases, so no more feeling guilty or seeing lackluster results.

Plus, it's so easy to make that even a 5-year-old could prepare a glass.

Just stir one scoop into a glass of water.

Sip it down.

And Voilà

you'll give your body every nutrient it needs to stay healthy, energized and trim.

Daily Energy is so healthy and pure, I bet even Italian grandmothers would give it their stamp of approval.

Just take a look at what you're getting with every scoop:

Supergreens for heart, lung and immune health

Spirulina, chlorella, wheatgrass, organic alfalfa, organic spinach, broccoli, and barley grass.

Citrus and tropical fruits for vision, joint and heart health.

Organic apples, cherries, rose hip berries, pineapples, and papayas.

Stress-busting adaptogens to feel that laid-back Mediterranean vibe without flying to Greece.

Rhodiola rosea, ashwagandha, astragalus, and sunflower extract to help maintain healthy cortisol levels.

Digestive enzymes, prebiotics and probiotics for better digestion, nutrient absorption and easy weight loss.

Plus, a few extra “supernutrients” for good measure:

- ▶ CoQ10, which quite literally recharges every cell in your body.
- ▶ ECGC, a tea extract that helps boost your metabolism so fat burns off faster.
- ▶ Beets for better blood pressure, blood sugar, and overall energy.
- ▶ Ginger for soothing stiff, achy joints
- ▶ And dozens many more.

Plus, it's certified organic and made in an FDA-approved facility. That means no GMOs, no artificial colors, no artificial flavors, no heavy metals, and no other junk.

Every ingredient comes from real farms where the focus is on the quality of the ingredient - not the quantity. Drinking Daily Energy is almost as natural as eating fruit right off the vine at a farm in France.

But what about taste?

Most other “greens” products taste like grass. But Daily Energy has a fruity, tangy taste. Even my kids look forward to drinking it.

Okay, how much will this set me back?

I reached out to Phil at Spring of Life (the company that makes Daily Energy). I told him about our mission to help people improve their health through the Mediterranean diet and lifestyle.

Well, he got so excited, he said:

“ You know what... I’ll send you a link that will give all of your readers 40% off Daily Energy. It’s the least I can do. ”

I was blown away. Because a 40% discount brings Daily Energy down a measly \$2.30 per day. And when you consider one tiny tin of cherries costs \$8 bucks at Whole Foods, \$2.30 for over 60 superfoods is an absolute steal.

Plus, you get a 60-day guarantee. Just try it for a month. If you’ or any reason, let us know and you’ll receive a speedy and courteous refund. You’ve got nothing to lose by giving it a shot.

Look, I don’t recommend many supplements. But I promise you — Daily Energy will make your health journey just a little bit easier, so you’ll see results just a little bit faster.

So, I’d like you to pick this up. Just make sure you use the link below to receive your 40% discount.
